In the 1980's, a group of Escapees wanted to create a park for full-time RVers similar to the Escapee parks in the west. Their search for suitable property led them to pasture land in Wauchula in rural, south central Florida, home of cattle ranches and orange groves.

This committed group of RVers pooled their finances to purchase the land and began the arduous task of turning a pasture into the beautiful park we have today. But they were doing much more than building an RV park, they were building community...where belonging, sharing and working together mattered.

Today, we, along with like-minded active RVers, continue this legacy of shared common purpose and core values—where our presence and participation contribute to the well-being of all.

We provide this information to help you understand the mutual benefits of becoming a member of the Florida SKP Resort community.

What We Offer

- ◆ We offer a real community.
- ◆ We offer the opportunity to belong to and participate in the life of our community
- ◆ We offer a numerous ways for you to participate...for entertainment, for education, for contribution to the well-being of the entire community, and for personal growth.
- ◆ We offer you the benefit of all our fine amenities in an RV resort that is beautiful, affordable, and where members enjoy life and find opportunities for growth.
- ◆ We offer you a lifestyle—not just a resort, not just an RV park, not just a winter site, not just a place to sit and do nothing.

Finally, we offer you the opportunity to apply for membership to our safe, small, and congenial RV resort surrounded by friends that will become family.

What You Offer

- ◆ **Your presence and your participation** in the community is vital, for without your participation, our community will be less. You can offer your leadership, talent, skill, experience, intellect and labor...all for the betterment of our community.
- ◆ You can offer a kind word, a happy greeting, a warm smile, an attentive ear, and a gentle heart to your friends and neighbors throughout our community; they are your family and you are theirs.
- ◆ You can offer continuity and longevity to the community.

Only as members join in, volunteer, participate, be involved, be active and work, play and laugh with others, do they begin to feel a part of the community. Only then can mutual benefit be achieved.

We understand that not everyone is looking for this type of community. However, if this is the kind of community you would like to be a part of, we invite you to continue on the pathway to membership.
