Motion was passed by the membership.

Announcement was made that the new Flag Pole has been installed.

The Safety and Emergency Committee chairman Marsha Hodgkins spoke of the concern that many people, after picking up their mail, walk down the ramp and stop in the street to visit with others. Because there is always traffic in front of the clubhouse the committee feels this is a Safety hazard. The committee would like to begin a discussion re: installing a Gazebo on the green space across from the clubhouse. This would be a permanent structure where folks could sit and visit in safety. After researching a 12 x 16 structure with a galvanized roof and curtains on the sides would cost about \$8,000 which could be raised by donations and fund raising.

Questions raised re: seating, space for golf carts, bicycles and space for campfire. A show of hands from those present determined that there was not enough interest in this project.

Janet Gibson stated that we should all increase our attention to COVID protocol for the safety of all in the park.

Dale Mankin suggested increased attention to the speed limit in the park (10 MPH). Perhaps more signage or speed bumps.

Motion to adjourn meeting was made by Dale Mankin at 9:45, seconded by Norita Ray.
